Preparation of NEPA Documentation for Remedial Activities at Operable Unit 1

G H Setlock, Director
Environmental Protection Management
EG&G Rocky Flats Inc

Rocky Flats Office (RFO) recently sent a request to headquarters for a determination of the proper level of integrated NEPA documentation for Operable Unit 1 (OU1) remedial actions. RFO recommended that an environmental assessment is the appropriate level of documentation to be integrated into the CERCLA Feasibility Study/Corrective Measures Study (FS/CMS) that is being prepared for the OU. We request that EG&G begin to integrate environmental assessment information into the FS/CMS for the project as soon as possible so that the integrated document will be available on its due date.
